Dear Academy Principals:

The Program for the Development of Human Potential (PDHP) in partnership with the New York Council on Problem Gambling (NYCPG) have produced an Underage Gambling Awareness project. Our agency created a short PowerPoint presentation which highlights current trends and consequences of underage gambling. We are sharing the link below with all Diocesan academies with the hope that we may be connected to parents and your community at-large. Would you please post the link onto your school website and/or any platform used to communicate with families?

Two days ago, the New York State Gaming Commission approved mobile sports betting, which will permit access to gamble from the comfort and convenience of home. Our mission at PDHP is to prevent the onset of problem gambling for youth, adolescents and families with whom we serve.
